

January 9, 1976

very simple bill. It is simply to create a new special levy so that the smaller communities can have a unified garbage collection service.

PRESIDENT: Senator DeCamp.

SENATOR DeCAMP: Mr. President, members of the Legislature, I would urge at this point some serious caution on this particular bill. It states in there that it would have very little impact at this time. It is my understanding that more federal regulations and some solid waste disposal acts and another bill in this Legislature could take this particular bill, if passed, and turn it completely around and make it have monumental financial impact. In addition, I think we are dealing with...we are dealing also with some tax laws that involve ways of getting around constitutional limitations on county taxes. So rather than move the bill at this time, I would urge you to bracket it until discussion of, I think it is 559, the solid waste disposal act, comes up.

PRESIDENT: I take it that you are not making a motion to bracket it. We are on an amendment, Senator DeCamp.

SENATOR DeCAMP: I think the amendments and everything else should really wait until you get to the solid waste disposal act and so I will make a motion to bracket it only in the interest of saving time because if we get it done and we find it is really rendered meaningless by other things, other bills here, we have wasted a lot of time on it. So I would move to bracket it.

PRESIDENT: Are you going to move or ask for unanimous consent?

SENATOR DeCAMP: I ask unanimous consent.

PRESIDENT: Senator Barnett, is there an objection.

SENATOR BARNETT: Yes.

PRESIDENT: All right. Wait. So there is a motion. Just a minute. There is a motion to bracket the bill.

SENATOR DeCAMP: I would move to bracket the bill. I would simply say in support of that that it is a very complex bill rather than a very simple bill. It involves your tax laws, your county wide mill levies, and in conjunction with other legislation, could have tremendous impact on property taxes.

PRESIDENT: Senator Barnett.

SENATOR BARNETT: I think, Senator DeCamp, if you would, if you would withdraw that amendment, it wouldn't be too bad. We could move it over to Select and let it sit on Select, and then if you want to move it, that would be fine, but I think that they have asked for this. They asked for it
